Community Partners

You're invited to attend the first annual Delran STEM Fair, to be held from 5:30-7:00pm at Delran Middle School before the BOE meeting on Monday, May 8th.

The purpose of the STEM fair is to showcase the amazing STEM work done throughout the school year by Delran Students, as well as showcase STEM applications in many real-world businesses and careers with special displays by our community partners.

Besides many student displays, here are a few highlights of what you'll see from our community partners:

- Bolt, Volt, and Tesla cars on display
- Lockheed Martin interactive engineering challenges
- Delran Fire Department heat sensing equipment
- Virtual Reality headset and littleBits engineering kits from Barnes & Noble
- Hens from the Delran Backyard Chicken Pilot
- Macroinvertebrate display from the Rancocas Creek Watershed
- Delran Township's new leaf truck
- The US Army's STEM vehicle (interactive 18-wheeler)
-and more!
